--------------	---------------	----------------------	------

Digital Materials or Audiovisual Resources	E-Community Research Platform	An open, peer-to-peer platform to serve researchers, practitioners, and adult educators from ecovillages and academia as well as policy makers on all levels in order to make the knowledge gained within and through ecovillages more accessible both for research and policy decisions on sustainable lifestyles and living environments.	2023
Digital Materials or Audiovisual Resources	E-Community Library	E-community, under the initiative Regen4All, diligently curates an extensive database in the style of a comprehensive library, focusing on Ecovillages and all related subjects. This repository is readily available to the general public, offering free access for consultation and is open to contributions from all quarters. The objective of this initiative is to illuminate and facilitate access to the existing wealth of knowledge concerning Ecovillages and the extensive research conducted in this domain. This, in turn, fosters a collaborative environment for generating and disseminating materials and insights relating to Ecovillages. It endeavors to establish inclusive alternatives founded on principles of communal sharing, mutual cooperation, and solidarity. To do so, we use the open source Software Zotero as a way to curate and organize this material. Find the links to explore, contribute, and understand better.	2023
Art Installation/Exhibition/Performance	A Heeding Tapestry	How would you explain the concept of ancestry to an artificially created life form?	2023
