### Curriculum

Completed my Bachelor's degree in Psychology, in 2018, and a Master's degree in Community Psychology, Protection of Children and Youth at Risk in 2020, at Iscte-Instituto Universitário de Lisboa. My master's thesis focused on the assessment of Posttraumatic Stress Disorder in children and young people, which resulted in the submission of a scientific article in the Journal of Child & Adolescent Trauma, as first author, and the publication of a poster at the International Congress of Clinical and Health Psychology in Children and Adolescents. I am currently doing my PhD in Psychology at Iscte on the topic "Early mother-infant relationship and the development of executive function during the first year" (UI/BD/152571/2022).

### Research Interests

Developmental Psychology

Quality of early interactions
