## Rúben Filipe de Sousa Pereira

### Professor Auxiliar

Instituto de Telecomunicações - IUL

Department of Information Science and Technology (ISTA)

### Contacts

<b>E-mail</b>	Ruben.Filipe.Pereira@iscte-iul.pt
<b>Office</b>	D6.08
<b>Telephone</b>	210464276 (Ext: 221805)
<b>Post Box</b>	174

### Curriculum

Rúben Pereira is an Assistant Professor at ISCTE. He has a PhD in Information Systems from the Instituto Superior Técnico (IST) where he also graduated as a Master in Computer Engineering and Computer Science. He has been a consultant in several industries, such as: services, banking, telecommunications, Ecommerce, among others. He is the author of several scientific papers, published in conferences / journals / international books, in the area of Information Technology Services Management (ITSM) and Information Technology Governance (ITG). Its areas of scientific interest extend to: Information Technology Risk Management (ITMM), Business Process Management (BPM), continuous improvement and innovation, process optimization, among others. He is also a fan of entrepreneurship, having already been co-founder of three projects, one of them winner of the Startups Factory and finalist in EDP Innovation.

### Research Interests

ITG - Information Technology Governance
BPM - Business Process Management
IT Frameworks - ITIL, COBIT, CMMI-SVC

ITSM - Information Technology Service Management
ITRM - Information Technology Risk Management
Digital Transformation
Robotic Process Automation
GDPR
DevOps

## Academic Qualifications

University/Institution	Type	Degree	Period
IST - Instituto Superior Tecnico	PhD	Sistemas de Informação	2014
IST - Instituto Superior Tecnico	Integrated M.Sc.	Engenharia Informática e de Computadores	2010

## Teaching Activities

Teaching Year	Sem.	Course Name	Degree(s)	Coord
2026/2027	2º	Business Process Management	Master Degree in Computer Science and Business Management;	Yes
2026/2027	2º	Information Systems Architecture and Management	Bachelor Degree in Computer Science and Business Management (PL); Bachelor Degree in Computer Science and Business Management;	Yes
2026/2027	1º	It Governance Fundamentals	Master Degree in Computer Science and Business Management;	Yes
2026/2027	1º	Introduction to Research in Computer Science and Business Management	Master Degree in Computer Science and Business Management;	Yes
2026/2027	1º	Digital Transformation	Master Degree in Computer Science and Business Management;	Yes
2025/2026	2º	Business Process Management	Master Degree in Computer Science and Business Management;	Yes
2025/2026	2º	Information Systems Architecture and Management	Bachelor Degree in Computer Science and Business Management (PL); Bachelor Degree in Computer Science and Business Management;	Yes
2025/2026	2º	Work Project in Digital Technologies for Business	Master Degree in Digital Technologies for Business;	No
2025/2026	2º	Digital Transformation	Other programme in Applied in AI for Tech Leaders;	Yes

2025/2026	2°	Creating Value with AI	Other programme in Applied in AI for Tech Leaders;	Yes
2025/2026	1°	It Governance Fundamentals	Master Degree in Computer Science and Business Management;	Yes
2025/2026	1°	Introduction to Research in Computer Science and Business Management	Master Degree in Computer Science and Business Management;	Yes
2025/2026	1°	Process Transformation and Automation	Master Degree in Digital Technologies for Business;	Yes
2025/2026	1°	Digital Transformation	Master Degree in Digital Technologies for Business;	Yes
2025/2026	1°	Digital Transformation	Master Degree in Computer Science and Business Management;	Yes
2025/2026	1°	Enterprise Architectures	Other programme in Advanced Programa in Digital Health;	Yes
2024/2025	2°	Business Process Management		Yes
2024/2025	2°	Introduction to Research in Computer Science and Business Management	Master Degree in Computer Science and Business Management;	Yes
2024/2025	2°	Information Systems Architecture and Management	Bachelor Degree in Computer Science and Business Management (PL); Bachelor Degree in Computer Science and Business Management;	Yes
2024/2025	2°	Work Project in Digital Technologies for Business	Master Degree in Digital Technologies for Business;	No
2024/2025	2°	Enterprise Architectures	Other programme in Advanced Programa in Digital Health;	Yes
2024/2025	1°	It Governance Fundamentals	Master Degree in Computer Science and Business Management;	Yes
2024/2025	1°	Process Transformation and Automation	Master Degree in Digital Technologies for Business;	Yes
2024/2025	1°	Digital Transformation	Master Degree in Digital Technologies for Business;	Yes
2024/2025	1°	Digital Transformation		Yes
2023/2024	2°	Business Process Management		Yes
2023/2024	2°	Introduction to Research in Computer Science and Business Management	Master Degree in Computer Science and Business Management;	Yes
2023/2024	2°	Information Systems Architecture and Management	Bachelor Degree in Computer Science and Business Management (PL); Bachelor Degree in Computer Science and Business Management;	Yes

2023/2024	2°	Agile Project Management		Yes
2023/2024	2°	Work Project in Digital Technologies for Business	Master Degree in Digital Technologies for Business;	No
2023/2024	2°	Enterprise Architectures	Other programme in Advanced Programa in Digital Health;	Yes
2023/2024	1°	It Governance Fundamentals	Master Degree in Computer Science and Business Management;	Yes
2023/2024	1°	Introduction to Research in Computer Science and Business Management	Master Degree in Computer Science and Business Management;	Yes
2023/2024	1°	Master Dissertation in Computer Science and Business Management	Master Degree in Computer Science and Business Management;	Yes
2023/2024	1°	Process Transformation and Automation	Master Degree in Digital Technologies for Business;	Yes
2023/2024	1°	Digital Transformation	Master Degree in Digital Technologies for Business;	Yes
2022/2023	2°	Master Dissertation in Computer Science and Business Management		Yes
2022/2023	2°	Project in Computer Science and Business Management		Yes
2022/2023	2°	Business Process Management		Yes
2022/2023	2°	Introduction to Research in Computer Science and Business Management	Master Degree in Computer Science and Business Management;	Yes
2022/2023	2°	Master Dissertation in Computer Science and Business Management	Master Degree in Computer Science and Business Management;	Yes
2022/2023	2°	Master Project in Computer Science and Business Management		Yes
2022/2023	2°	Information Systems Architecture and Management	Bachelor Degree in Computer Science and Business Management (PL); Bachelor Degree in Computer Science and Business Management;	Yes
2022/2023	2°	Agile Project Management		Yes
2022/2023	2°	Digital Transformation		Yes
2022/2023	2°	Audit and Quality		Yes
2022/2023	1°	Master Dissertation in Computer Science and Business Management		Yes

2022/2023	1°	Project in Computer Science and Business Management		Yes
2022/2023	1°	Seminar in Computer Science and Business Management		Yes
2022/2023	1°	It Governance Fundamentals	Master Degree in Computer Science and Business Management;	Yes
2022/2023	1°	Introduction to Research in Computer Science and Business Management		Yes

## Research Projects

Project Title	Role in Project	Partners	Period
IRST SIGHT MODEL	Local Coordinator	Guidgest - Leader (Portugal), Inov (Inov) - (Portugal)	2023
Master's Degree of Managing Digital Transformation in the Health Sector	Researcher	Iscte - Leader, LAUREA - (Finland), AUTH - (Greece), UNI EIFFEL - (France), IT-IUL - (Portugal), Clinipower - (Finland), Whymob - (Portugal), MundiConsulting - (Portugal)	2023 - 2026

Development of a tool to digitalize quality assurance control	Local Coordinator	Disruptive Loop - Leader (Portugal)	2022 - 2023
Investigate how metaverse may influence the B2B in telecommunications	Local Coordinator	NFON - Leader (Portugal)	2022 - 2023
Use RPA to automate DevOps/ITSM processes	Local Coordinator	Critical TechWorks - (Portugal)	2022 - 2023
Optimization of Healthcare processes with BPM	Local Coordinator	HSM - Leader (Portugal)	2022 - 2023
Development of an algorithm to uniformize Real Estate agents mobile contacts	Local Coordinator	Disruptive Loop - Leader (Portugal)	2021 - 2022
Development of an algorithm to predict house prices	Local Coordinator	Disruptive Loop - Leader (Portugal)	2021 - 2022
Team management challenges organizations face when implementing Devops	Local Coordinator	Cetelem - (Portugal)	2020 - 2021
End-to-end Security of the Digital Single Market's E-commerce and Delivery Service Ecosystem"	Local Coordinator		2020 - 2021
Development of a dashboard to assist devops management	Local Coordinator	SIEMENS - Leader (Portugal)	2020 - 2021
Improvement of a web CRM user interface and user experience	Local Coordinator	REMAX - Leader (Portugal)	2020 - 2021
Improvement of a mobile CRM user interface and user experience	Local Coordinator	REMAX - Leader (Portugal)	2020 - 2021
Information Technology Governance Mechanisms for Higher Education Institutions	Local Coordinator	UFSC - Leader (Brazil)	2019 - 2023

Development of a mobile customer relationship management system	Local Coordinator	REMAX - Leader (Portugal)	2019 - 2020
CAPACITA: A Platform for Offering MOOCs for Training and Continuous Education.	Local Coordinator	UFSC - Leader (Brazil)	2019 - 2020
Development of a Dashboard to Assist Decision-Making in University Extension Management	Local Coordinator	UFSC - Leader (Brazil)	2019 - 2023
Development of maturity model for devops	Local Coordinator	SIEMENS - Leader (Portugal)	2018 - 2019
Development of system parking guiding	Local Coordinator	SIEMENS - Leader (Portugal)	2018 - 2019
Proposal of a testing tool to work as a robotic process automation system	Local Coordinator	EDP - Leader (Portugal)	2017 - 2018
Development of a system able to enable workers to meet in a virtual environment	Local Coordinator	SIEMENS - Leader (Portugal)	2017 - 2018
Optimization strategies for emergency departments	Local Coordinator	Hospital Garcia de Orta - Leader (Portugal)	2017 - 2018
Proposal of optimization strategies for the HR department processes.	Local Coordinator	BdP - Leader (Portugal)	2017 - 2028
Development of a system able to extract clinical knowledge from electronic medical records	Local Coordinator	Hospital Garcia de Orta - Leader (Portugal)	2017 - 2018
Proposal of optimization strategies for incident management process	Local Coordinator	SIEMENS - (Portugal)	2017 - 2018
Development of a system to predict emergency department demand.	Local Coordinator	HGH - (Portugal)	2017 - 2018

Development of an algorithm to automate incident resolution	Local Coordinator	SIEMENS - Leader (Portugal)	2017 - 2018
R&D project "COBRA2" N° 23565 about a tool for assessing the maturity level for several IT governance frameworks and standards	Local Coordinator		2017 - 2028
Development of a dashboard to measure the hospital productivity.	Local Coordinator	HGO - (Portugal)	2017 - 2018
R&D project "ISINOV" about a tool for assessing the maturity level of ITIL, COBIT e CMMI	Local Coordinator	Altran - Leader (Portugal)	2010 - 2013

## Academic Management Positions

Sub-diretor (2026 - 2027)  
Unit/Area: Master Degree in Digital Technologies for Business

Director (2024)  
Unit/Area: Master Degree in Computer Science and Business Management

Director (2022 - 2024)  
Unit/Area: Master Degree in Computer Science and Business Management

Coordenador do 1º Ano (2021 - 2023)  
Unit/Area: Master Degree in Computer Science and Business Management

Coordenador do 2º Ano (2021 - 2023)  
Unit/Area: Master Degree in Computer Science and Business Management

Director (2020 - 2022)  
Unit/Area: Master Degree in Computer Science and Business Management

## Organization/Coordination of Events

Type of Organization/Coordination	Event Title	Organizer	Year
Coordination of non-scientific event	Bridging the (Digital Transformation) Gap	ISACA - ISCTE	2023
Coordination of non-scientific event	How can artificial intelligence help SMEs?	ISCTE	2018
Member of non-scientific event's organizing committee	Formação em Inovação Organizacional	ISCTE	2017

Member of scientific event committee	Iberian Conference on Information Systems and Technologies		Since 2016
Member of scientific event committee	World Conference on Information Systems and Technologies		Since 2016

## Diffusion Activities

Activity Type	Event Title	Activity Description	Year
Coordination of knowledge diffusion event	Digital at the Service of the Energy Transition	This insightful talk delves into the subject of 'Digital at the Service of the Energy Transition'. It explores how digital technologies are playing a pivotal role in advancing the transition to sustainable energy systems. Key topics include the use of data analytics in optimizing energy efficiency, the role of AI in managing renewable energy sources, and the impact of digital twins in enhancing grid reliability.	2023
Coordination of knowledge diffusion event	ATLAS Tool Demonstration	This enlightening talk showcases a demonstration of the ATLAS tool by Link Consulting. As an innovative platform designed to streamline business processes, ATLAS's capabilities are explored in detail. From its role in managing complex workflows to enhancing operational efficiency, the tool's multifaceted features are highlighted. The demonstration also includes how ATLAS supports decision-making through data-driven insights.	2023
Coordination of knowledge diffusion event	The state of the art of Virtual Reality in Portugal	This enlightening talk examines 'The State of the Art of Virtual Reality in Portugal'. It explores the current landscape of Virtual Reality (VR) technology in Portugal, highlighting the most innovative applications and developments in various sectors. The discussion also covers the challenges and opportunities that VR presents, from enhancing user experiences to transforming business operations. It provides a comprehensive overview of how Portugal is embracing VR technology and the potential it	2023

Coordination of knowledge diffusion event	Data ecosystem and the digital transformation	This insightful talk examines the integral role of the data ecosystem in digital transformation. It explores how the interconnected network of data, technologies, and people is leveraged to drive digital innovation and strategic decision-making. Key points include the importance of data management, analytics, and data-driven culture in fostering successful digital transformations. The discussion also delves into practical examples and strategies for building a robust data ecosystem.	2023
Coordination of knowledge diffusion event	Digital transformation or how to build the Org of the future	This compelling talk explores the theme of 'Digital Transformation: Building the Organization of the Future'. It delves into the strategies required to drive digital transformation effectively and the role of leadership in fostering a digital culture. The discussion also covers the necessity of adopting emerging technologies, redesigning business models, and nurturing digital skills for the future.	2023
Coordination of knowledge diffusion event	Global Digital Services at SIEMENS	This engaging talk explores the role and contributions of the Global Digital Services, a unit within Siemens that promotes innovation projects. The discussion highlights the unit's pivotal role in spearheading digital transformation within the company. It also delves into the strategies and methodologies employed to foster innovation and drive impactful digital projects.	2023
Coordination of knowledge diffusion event	Digital Transformation: Páginas Amarelas case study	This engaging talk presents a deep dive into 'Digital Transformation: The Páginas Amarelas Case Study'. It explores how Páginas Amarelas, a traditionally print-centric business, successfully navigated a comprehensive digital transformation. The discussion examines the challenges encountered, strategies implemented, and successes achieved throughout this transformation journey. It also highlights the critical role of leadership, culture, and technology in driving digital change.	2023

Coordination of knowledge diffusion event	Digitalization in BMW	This engaging talk delves into the case of digitalization at BMW, a leading player in the automotive industry. The discussion illuminates how BMW has harnessed digital technologies to revolutionize its processes, enhance customer experience, and maintain a competitive edge. It examines the strategies employed, challenges encountered, and successes achieved throughout the digital transformation journey.	2023
Coordination of knowledge diffusion event	The challenge of data	This compelling talk delves into the multifaceted challenges of data in the modern business landscape. It explores the hurdles organizations face in collecting, managing, and harnessing data, from ensuring data quality and privacy to overcoming data silos. The discussion also highlights the complexities of transforming raw data into actionable insights and the need for a robust data infrastructure.	2023
Coordination of knowledge diffusion event	Importance of IT Governance in industry	This enlightening talk delves into the pivotal role of IT Governance in today's industrial landscape, exploring how strategic management of IT resources can enhance operational efficiency, reduce risk, and drive competitive advantage. Key aspects of IT Governance such as aligning IT with business goals, managing IT investments, mitigating cybersecurity risks, and ensuring regulatory compliance are addressed.	2022
Coordination of knowledge diffusion event	IT Service Management projects in practice	This insightful talk focuses on "IT Service Management Projects in Practice". It examines real-world examples of IT Service Management (ITSM) projects, highlighting the methodologies, tools, and strategies used. The discussion delves into the challenges faced during implementation and the solutions that ensured project success. Furthermore, it explores the tangible benefits and impact of effective ITSM on business operations.	2022

Coordination of knowledge diffusion event	GDPR and legal issues for IT	This insightful talk navigates the complexities of the General Data Protection Regulation (GDPR) and its legal implications for IT. It underscores the importance of data privacy, the obligations under GDPR, and the potential legal repercussions of non-compliance. Key aspects such as data subject rights, data breach notifications, and international data transfers are examined.	2022
Coordination of knowledge diffusion event	Implementing IT Strategy: A real case	This intriguing talk delves into the topic of "Implementing IT Strategy: A Real Case". It presents an in-depth analysis of a real-world scenario where IT strategy was successfully executed, resulting in significant organizational transformation. The discussion highlights the strategic planning process, challenges encountered, and solutions implemented. It also examines the key success factors and outcomes of the IT strategy implementation.	2022
Coordination of knowledge diffusion event	Global Digital Services at SIEMENS	This engaging talk explores the role and contributions of the Global Digital Services, a unit within Siemens that promotes innovation projects. The discussion highlights the unit's pivotal role in spearheading digital transformation within the company. It also delves into the strategies and methodologies employed to foster innovation and drive impactful digital projects.	2022
Coordination of knowledge diffusion event	Using data to create value	This stimulating talk focuses on the concept of 'Using Data to Create Value'. It underscores the role of data in driving strategic decisions, fostering innovation, and enhancing customer experience. Key discussion points include data collection, analysis, and interpretation, along with the potential of predictive analytics and AI in unlocking the true value of data. Attendees can anticipate gaining insights into how data can be transformed into actionable intelligence.	2021

Coordination of knowledge diffusion event	ATLAS Tool Demonstration	This enlightening talk showcases a demonstration of the ATLAS tool by Link Consulting. As an innovative platform designed to streamline business processes, ATLAS's capabilities are explored in detail. From its role in managing complex workflows to enhancing operational efficiency, the tool's multifaceted features are highlighted. The demonstration also includes how ATLAS supports decision-making through data-driven insights.	2021
Coordination of knowledge diffusion event	Importance of IT Governance in industry	This enlightening talk delves into the pivotal role of IT Governance in today's industrial landscape, exploring how strategic management of IT resources can enhance operational efficiency, reduce risk, and drive competitive advantage. Key aspects of IT Governance such as aligning IT with business goals, managing IT investments, mitigating cybersecurity risks, and ensuring regulatory compliance are addressed.	2021
Coordination of knowledge diffusion event	GDPR and legal issues for IT	This insightful talk navigates the complexities of the General Data Protection Regulation (GDPR) and its legal implications for IT. It underscores the importance of data privacy, the obligations under GDPR, and the potential legal repercussions of non-compliance. Key aspects such as data subject rights, data breach notifications, and international data transfers are examined.	2021
Coordination of knowledge diffusion event	Importance of IT Governance in industry	This enlightening talk delves into the pivotal role of IT Governance in today's industrial landscape, exploring how strategic management of IT resources can enhance operational efficiency, reduce risk, and drive competitive advantage. Key aspects of IT Governance such as aligning IT with business goals, managing IT investments, mitigating cybersecurity risks, and ensuring regulatory compliance are addressed.	2020

Coordination of knowledge diffusion event	IDEA tool demonstration	This engaging talk presents a demonstration of the IDEA (Interactive Data Extraction and Analysis) tool, a powerful data analysis software widely used in auditing and accounting. Attendees will witness the tool's capabilities firsthand, from importing and analyzing data to performing advanced functions such as stratification, sampling, and regression analysis. The demonstration will also cover how IDEA facilitates fraud detection, risk assessment, and compliance verification.	2020
Coordination of knowledge diffusion event	GDPR and legal issues for IT	This insightful talk navigates the complexities of the General Data Protection Regulation (GDPR) and its legal implications for IT. It underscores the importance of data privacy, the obligations under GDPR, and the potential legal repercussions of non-compliance. Key aspects such as data subject rights, data breach notifications, and international data transfers are examined.	2020
Coordination of knowledge diffusion event	IT evolution in Telecommunication companies	This insightful talk delves into the IT evolution in Telecommunication companies. It traces the transformation from traditional telecommunication infrastructures to modern, digitized systems. Key developments such as the adoption of cloud technologies, AI, 5G, and IoT are examined, highlighting their impact on service delivery, customer experience, and operational efficiency. The talk also provides insights into the challenges and opportunities that these technological advancements present.	2020
Coordination of knowledge diffusion event	Demonstration of IT Value in SIEMENS	This enlightening talk explores the intrinsic value of Information Technology (IT) for organizations, highlighting its role far beyond just a support function. IT emerges as a critical driver of business strategy and competitiveness. The discussion emphasizes the ways IT enables process automation, data-driven decision making, customer experience enhancement, and innovation. The transformative potential of emerging technologies also forms a central part of this talk.	2019

<p>Coordination of knowledge diffusion event</p>	<p>Importance of IT Governance in industry</p>	<p>This enlightening talk delves into the pivotal role of IT Governance in today's industrial landscape, exploring how strategic management of IT resources can enhance operational efficiency, reduce risk, and drive competitive advantage.
